Who are we and what do we do?

We are your local diesel fuel specialists. We've been in the fuel injection business for over 40 years and within that time have partnered with a variety of major manufacturers.

We not only test, remove and repair your fuel injection pumps but we also do a variety of different vehicle services such as MOTs, Air conditioning regas and so much more.

Other aspects of our business includes the selling of brand new or reconditioned diesel parts. This is done through our two online webshops Diesel Parts Direct and Delphi Parts Store.

We also run our own marketplace, specific for all types of vehicle parts, giving the public opportunity to sign up as either a buyer or a seller. This way they can either browse for parts they need or upload their own obsolete or new parts.

Local Collection & Delivery

Kent & East Sussex

THOMAS GROUP
WE KNOW DIESEL

Do you need your injector tested or repaired?

We now have a collection and delivery service making the whole process stress free for you. When you contact us, make us aware that you want this service and we can plan a date. This service is for the Kent and East Sussex Areas.

01233 642816

info@thomasgroupltd.co.uk

Distribution

Our primary aim at Thomas Distribution is to supply first class products to our customers along with a first class service. Our intention is to convert all of our first-time enquiries to long-term customers. We can only do this by giving our customers the best possible service.

We represent most original equipment manufacturers in the diesel fuel injection industry, including well-known names such as Bosch, Siemens VDO, Denso, Delphi, Stanadyne, Parker Racor, Hopkins and Alliant Power, Yanmar.

Our experienced parts personnel are excellent at finding the most obscure products, even when those products are old or obsolete.

Our intention is to give our customers choice of how you want to buy...

- Online • Phone • Email
- Choose how you want to pay...
Credit Account, PayPal, Credit Card
or Bank Transfer.
- Choose how you want us to ship...
Next Day, Signed For, By Pallet or Collect.

Genuine parts

Diesel engines and diesel fuel injection have been around a long time. Many names from the past no longer exist as trading companies and their parts and complete units become harder and harder to find.

A lot of these engines are still running in agricultural machinery, buses, lorries and stationary applications like gen sets. Some examples from our whistory are:-

Gardner • Simms • Roosa Master • Sigma • Friedmann and Maier • Lucas CAV • AMBAC • Diesel Kiki and much more!

We have stocks of parts and pumps that may be just what you need and we have good contacts around the world to help us find the part numbers that we do not currently have in stock. We also have a great deal of technical information, parts manuals and test data that is now invaluable.

We have a very modern fuel injection workshop with experienced technicians that can often put together what you need from core pumps and injectors, or service your old unit.

Everything we send out is fully tested and warranted.

www.dieselpartsdirect.co.uk

A leading global automotive emissions, fuel economy and aftermarket solutions provider

Filtration

Delphi's comprehensive filtration range covers a wide choice of applications. These are designed and manufactured to keep up with the high pressures and fine tolerances of modern engines. Their patented technology and high efficiency, multi-layer design ensure optimum protection of fuel injection systems.

Common Rail Injectors & Injector Repair

- Genuine Delphi injectors.
- Fully conditioned units complete with genuine Delphi parts.
- Fully tested and re-coded on approved test equipment.
- 12 months warranty.

ECO-FIX Available

New genuine control valve and tested for electrical function, return flow and main fuel spray operation.

- 3 months warranty.

Mechanical & CR Fuel Injection Pumps, Solenoids, Sensors & Valves

If you are specifically interested in Delphi Parts, please see our dedicated Delphi Parts Web Shop
www.delhipartsstore.co.uk

DELPHI
PartsStore

The Bosch Automotive division provides the aftermarket and workshop concepts worldwide with a complete range of diagnostic and repair shop equipment, and a wide range of spare parts- from new and exchange parts to repair solutions for passenger cars and commercial vehicles.

Its portfolio includes products made as Bosch original equipment, as well as aftermarket products and services developed and manufactured in-house.

We are Bosch service agents

Servicing rotary and inline pumps along with the newest generation common rail systems on a Bosch EPS 815 test bench.

Metering units

Solenoids

Pressure sensors

Pressure limiting valves

Making commercial and special-purpose vehicles safer, cleaner and more economical

The VDO brand is a central pillar of the Commercial Vehicles & Aftermarket (CVAM) division of Continental and is represented worldwide with an extensive network of sales and service companies.

Under the brand, Continental, as one of the world's leading automotive suppliers, markets electronic products, systems and services which make commercial and special-purpose vehicles safer, cleaner and more economical while also allowing them to operate more efficiently on a day-to-day basis.

Common Rail Fuel Pumps

Electric Lift Pumps

CR Fuel Injectors

Denso is one of the world's major players in diesel systems. They have been manufacturing injection pumps for diesel engines since 1957.

Based on Denso's expertise as a leading global supplier to all major automakers, the company provides automotive service parts that contribute to safer and more fuel-efficient driving.

Thomas Group has all the necessary tooling and expertise to provide a comprehensive repair and diagnostic service.

Suction Control Valves

It is important to ensure your replacement Suction Control Valves are of the highest quality.

Thomas Group only stock OE manufacturer parts from brands such as Denso, so you can place your order in the safe knowledge that your replacement part is genuine and of the highest quality.

New & Reconditioned Common Rail Injectors

Thomas Group are able to offer Denso's OE quality aftermarket ranges including Common Rail systems, Nozzles & Pump components.

www.dieselpartsdirect.co.uk

Always moving technology forward

As the global community demands ever lower emissions and greater efficiency, Stanadyne is charging forward and resolving the most complex challenges facing fuel systems. Across automotive, construction, agriculture, and other industries, they are always moving technology forward to deliver best-in-class performance and enable engines to be cleaner, more efficient, and more powerful.

Stanadyne has been at the forefront of tomorrow's technology for over 140 years. As times and technologies have changed, one thing has remained constant—the passion and commitment of their people and their focus on driving innovation for the future of fuel systems.

Injectors & Nozzles

Stanadyne offers a wide selection of fuel injectors and assemblies for both direct and indirect injection diesel systems.

Designs range from their patented Rate-Shaping and Pencil Nozzles to Hole and Pintle type nozzles and assemblies, and their new diesel common rail injectors.

Fuel Injection Pumps

Using 'copy parts' not only jeopardises the quality, performance and warranty, but also the dependability and life of a customer's diesel engine.

Stanadyne parts are manufactured to exacting specifications for optimum diesel engine performance.

As a Central Distributor for Stanadyne, we not only supply the full range of genuine fuel injection parts, we also employ manufacturer-trained technicians, enabling us to offer testing and repair services of the highest calibre.

www.dieselpartsdirect.co.uk

A wide wange of Yanmar part numbers

- We have the correct tools, software and expertise to service all your Yanmar diesel equipment.
- All types of mechanical pumps and injectors.

We are the only UK Yanmar approved diesel fuel injection equipment repair workshop | Only genuine Yanmar spares are used, therefore keeping the original quality and reliability of your engine | The only UK workshop using Yanmar supplied test data and software capable of reprogramming the TNV Eco ECU | For further enquires call: 01233 642816 | www.thomasgroupltd.co.uk

Lucas Diesel

Lucas Diesel parts are our economic range/equivalents, high quality alternatives that we supply on our online webshop, Diesel Parts Direct.

Cross references to parts from well known manufacturers such as Delphi are listed on each product making it easy for you to find the correct alternative.

Lucas product range includes, Nozzles, Filter units, Seals, Gaskets, Head & Roters, Metering valves, O-rings, Overhaul kit parts set and so much more.

Exceptional quality and durability in the iconic **green** box

Fuel Manager Filtration

The fuel filtration and water separation needs of today's new generation diesel fuel systems demand extremely high efficiency, flexibility, multiple functions and ease of use, without the risk of fuels spills or part contamination.

Fuel Manager filtration systems have been specified as original equipment by over 70 OEM's.

Ideal for light, medium or heavy duty trucks, agricultural and industrial vehicles, power generation and marine applications. There is a Fuel Manager Series to meet any condition.

Today's fuel filtration and water separation demands high efficiency with multi-function, flexibility and ease of use without the risk of fuel spills or contaminated parts. The Fuel Manager range of combination fuel filters/water separators meet these demanding requirements.

Fuel Manager Accessories

Take your filtration to the next level with the accessories we offer for the filter elements.

The **header assembly** goes on the top of your filter. We supply them in a kit so they are easy to attach yourself.

We also sell a **clear bowl kit** for the bottom of your filter, so when it separates the water it gets caught in the bowl.

Stanadyne/Fuel Manager Electric Lift Pump Kits

We are now offering a select number of service replacement Electric Lift Pumps for the after-market FM100 Filters. The kits are supplied with an electric lift pump, a new O-ring and an installation instruction sheet.

The lift pumps are replacements for OEM and aftermarket filter assemblies fitted to New Holland, SISU Diesel and John Deere.

Let your engine **BREATH** Filter out impurities

With a history stretching back more than 85 years, Perkins is one of the world's leading providers of diesel and gas engines, providing the most comprehensive range of innovative and reliable power solutions, tailored to meet precise requirements.

Diesel engine oil filters help remove the harmful soot, deposits and sludge caused by the breakdown of engine oil. Removing the sludge and deposits enables the oil to circulate, to lubricate and help cool the engine, and prevents wear as the components interact with each other. It is vital to have the right oil filter, as well as the correct engine oil so that your diesel engine is running as smoothly before, as after the service. Using a genuine Perkins oil filter will ensure you have a long, reliable engine life.

Designed to meet the needs of Perkins engines by providing superior protection against particles that can make their way into the lubrication system during service or from component wear.

Increasing emissions levels has resulted in more precise engineering tolerances in galleries and channels leaving less room between engine components than before, so choosing a genuine Perkins filter is more important than ever to ensure effective lubrication and cooling.

Pre Fuel Filters

Perkins primary Eco filter element for high-efficiency filtration in primary fuel filters on Perkins engines. With increased contamination control without giving up dirt-holding capacity for stricter component and emission requirements in newer machines.

Baldwin Filters

A leader in engine mobile filtration.

Baldwin is a global provider of filtration products which have superb quality and a broad product line meaning there is a filter available for any vehicle.

There are **various different types** of filters, such as:

- Hydraulic Filters
- Oil Filters
- Fuel Filters
- Air Filters
- Coolant Filters

Accessories are available for the Baldwin filters as well.

BF7850 - In-line Nylon Mesh Fuel Filter in Plastic Housing

These filters have excellent contaminant removal even at high flow rates.

BF970 - Baldwin Spin on Filter

These filters ensure that fuel is clean to keep the engine running at maximum efficiency.

To enquire about the Baldwin filters and to check availability, contact us.

Parker Stanadyne Performance Formula

The premium all-season, multi-function diesel additive; designed to tackle virtually any diesel fuel related problems.

Stanadyne performance formula protects and improves the performance of all diesel fuel injection systems and is suitable for use with all types of on or off-road diesel fuels including ULSD and Bio diesel.

Benefits

- Cold weather protection - reduces diesel pour point up to 40°F (22°C) and cold filter plug point by 25°F (13°C) depending on base fuel.
- Hot weather protection - Lubricants and Cetane improver help when fuel is hot and “thin”.
- Increases Horsepower - with up to 5 point cetane gain to improve combustion.
- Reduces Fuel Consumption - independent tests show gains up to 9.6% in MPG.
- Easier & Faster starting - in all conditions.
- Reduces Smoke and Particulate Emissions - suitable for ultra low sulfur diesel.
- Cleans/Protects - detergents & deposit modifiers help protect injection pumps, injectors, nozzles
- Reduces Wear - restores lubricity to Ultra Low Sulfur and other low lubricity diesel fuels.
- Stabilizes Fuel - antioxidants keep fuel fresher.
- Alcohol Free - avoids corrosion and accelerated wear.
- Helps Remove Water-special demulsifiers cause tiny water droplets to come out of suspension/emulsion so the filter/separator can more effectively remove it.
- Can be used with Bio Diesel Fuel - up to B20, or 20% bio content.

Call us to discuss how we can help you improve engine performance, save money and reduce emissions:

01233 642816

Wakefield Council Trial

Fuel Additive Success-Fifty Five Thousand Reasons why

Analysis of data from over 2,200 fuel fill-ups per month for the 500-strong fleet revealed a huge annual fuel saving of 7.8% (equating to 70,000 litres of fuel with approx. value of £73k with net saving £55k), Maintenance costs on EGR, DPF and fuel injection significantly reduced showing the effect of added lubricity and a cleaner burn. 100% of vehicles selected for emission testing showed considerable reductions, which in today's environment bodes well for both the transport industry and efforts to achieve ambitious government targets for air pollution.

"We have worked in partnership with Kevin at Thomas Group over the past year – the dosing operation of the fuel additive to 6 bulk storage sites has ran very smooth and the benefits that we see have continually increased and surpassed expectation"
Wakefield Council

Further benefits. **Improved engine performance** will be gained as the high-quality additive will remove the build-up of internal diesel injector deposits (IDIDs) to protect against power loss and even **restore lost power** over time. Furthermore, by **providing constant lubrication**, DIESEL 1000™ has been proven to extend the life of engine components by protecting against the degradation of the fuel injection system. In doing so, council fleets can expect **reduced maintenance costs**, protect their fleets and **maximise the return on their investment**.

Pete Johnson, Service Manager for Transport Services Wakefield Council, commented:

"The trial has given very positive results and fuel savings based on robust data. This, along with the reduction in emissions and maintenance costs means, the trial was a resounding success."

With today's high fuel prices and the precision of modern vehicles and machinery, ensuring the quality of your fuel has never been more important. The products in the range have been specifically designed to help you get the most from your fuel.

Additives

If fuel is the lifeblood of your engine, then the fuel injection system is the beating heart. Modern engines are sophisticated. Driven by the need for lower emissions, fuel injection systems now cope with much higher pressures, temperatures and voltages. This gives the user a cleaner, more efficient and more powerful machine. **None of these systems work to their full potential if the fuel in the tank is not of the highest quality.**

The Thomas Additive range has been created using over forty years of experience in the fuel injection industry. These additives have been tested in real working environments and data on this can be made available.

Our Complete Fuel Treatment diesel additive range will optimise the performance and efficiency of your engine. By increasing the cetane rating of your fuel you enable a more complete burn of your fuel in the cylinder. The benefit is more power, better starting and reduced emissions.

Fuel Quality Products - Kolor Kut, Water Soakers & Funnels

Kolor Kut water finding paste, otherwise known as Water Guaging Paste, it is used to test for the presence of water in the bottom of oil, diesel, petrol, fuel oil, and kerosene tanks.

The **water soakers** will remove any build-up of water as well as preventing any further water accumulation. The water soaker fits at the bottom of the tank where the collective water settles and absorbs it.

Mr Funnel has a solution for any engine you own. With a variety of sizes, there will be a funnel with the correct flow rate for your vehicle. The funnel cleans your fuel of impurities before it goes into the engine.

Your Tool for Pure Fuel

Whether its for your lawnmower, motorbike, generator, bulldozer or boat, Mr Funnel has a solution for any engine you own.

- ▶ The Fuel Filter Funnel is a heavy-duty, anti-static and fast flow funnel with built in filter technology.
- ▶ When fuel is poured through it, Water and Debris will not pass through. Only clean, filtered fuel flows through to your engine.
- ▶ The funnel will filter Petrol, Diesel, Heating Oil and Kerosene.
- ▶ The sump area collects the deflected water and debris for efficient disposal.
- ▶ Choose the funnel with the flow rate that best suits your fuel transfer needs.

Patented structural design combined with high strength, lightweight material makes the RhinoRamps as strong as any other ramps on the market, resin or metal

RhinoRamps MAX

RhinoRamps

Heavy Duty Wheel Chocks

EZ Lift Rider Ramps

Better by Design

Strength and stability- RhinoRamps achieve this with a Strong as Steel superstructure and integrated Core-Trac, non skid feet to reduce sliding during use. Adding superior tread pattern and wide design make these the most secure ramps on the market. A reduced rise angle also works to accommodate low profile vehicles...a feature most other ramps can't claim!

Space Saving & Lightweight

The unique, nestable design not only saves space in the customer's garage but more pieces on a pallet means reducing footprint in the warehouse, on the truck and minimises space required on a retail shelf. This combined with the light weight material allows for easy handling and portability making RhinoRamps the best choice in lifting devices.

16,000 lb, GWV RhinoRamps MAX

- Nestable for maximum cube utilisation
- 17 degree angle for low clearance vehicles
- Extra-wide tyre width
- Part number: 11912MIE

12,000 lb, GWV RhinoRamps MAX

- Nestable for maximum cube utilisation
- 17 degree angle for low clearance vehicles
- Extra-wide tyre width
- Part number: 11909MIE

Heavy-Duty Wheel Chocks

- Safety device to use with ramps/other lifting devices
- Prevents tyres from rolling
- Not for commercial use
- Part number: 11930MIE

EZ Lift Rider Ramps

- Makes mower maintenance easy
- Provides 6" of lift
- Gripping points for use on concrete or grass
- Part number: 11935MIE

Extraction Makes Fluid Changes Quick, Easy & Clean

Ease of use

Hand pump action creates a powerful vacuum for fluid extraction - no electricity needed.

Compact design

Allows for accessibility in tight spots and conveniently transfers fluids for storing, transporting and recycling.

Flexible

A versatile lineup that is perfect for a variety of applications from large to small engines fluid services.

VARTA Batteries

CLARIOS

Introducing VARTA Batteries to our online webshop, Diesel Parts Direct. With a variety of batteries available, we can help you find the correct one for your vehicle. These batteries must be installed by a professional workshop.

To buy and get a battery fitted call **01233 642816**.

Suitable for all vehicles with start-stop systems
– kicks in earlier, works harder, lasts longer.

Patented PowerFrame® grid for reliable starting power, fast recharge and corrosion resistance.

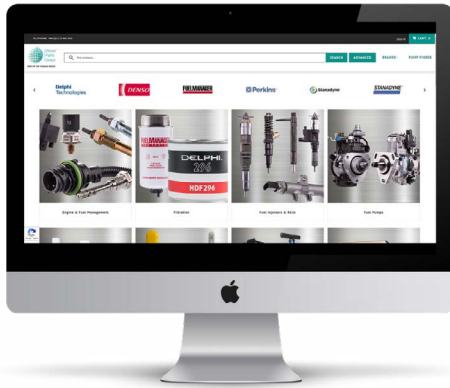

“Like-for-like” replacement of the battery sold to the OE channel.

Made in Germany in the world's largest AGM production plant.

Thousands of products - Just a click-away!

We are distributors of some of the world's leading manufacturers fuel injection products and equipment:-

Delphi • Stanadyne • Bosch • VDO • Fuel Manager • Parker Racor

We stock a vast range of parts and have access to thousands of product lines-all of which are on offer at great prices!

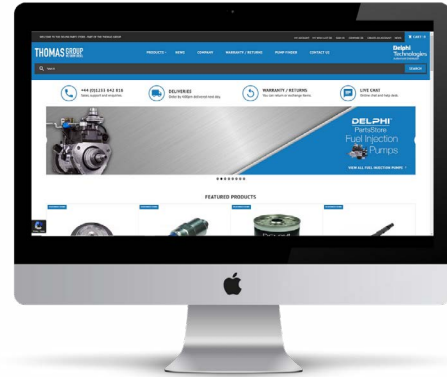

We are also stockists of Parker Racor parts which offer one of the most comprehensive ranges of filtration equipment in the UK.

Our online shop enables you to browse thousands of products on your PC, Tablet or Smart Phone.

Customer accounts are 'live', offering better prices to trade customers as well as tailored pricing structures unique to you.
