

# BIOCIDE

## FuelBright Ultra-Care Diesel Biocide

Concentrated solution for fast removal of organic growth in fuel tanks. This growth is often known as algae, fungus, microbes and diesel bug.

This growth occurs in the interface between fuel and water and can clog your fuel filters and seriously damage your fuel injection equipment.

### Benefits are:

- Removal of organic growth from fuel tank and lines.
- Prevention of regrowth.
- Aids combustion.
- Can be used with biofuels.
- All diesel fuel related products are alcohol-free. They are also compatible with ultra-low sulphur diesel, (ULSD) biodiesel (up to B20), and exhaust aftertreatment emission systems (SCR & DPF).

### This product is for professional use only.

*(Be prepared to change fuel filters after initial use)*
